I am a Software Engineer with experience working for various companies in a variety of sectors. I like to work closely with UI and UX, and collaborate with product owners/managers to solve business problems. I'm in crypto since 2016, and I've built several projects and packages for the ecosystem.

Knowledge

Languages: Javascript, Typescript and Python

Databases: PostgreSQL, MongoDB and DynamoDB

Frameworks / Libs: React, NextJS, Gatsby, React Native, NodeJS

Cloud: AWS

Crypto: BTC, ETH (L1 and L2), DOTSAMA

Education

Computer Science - Universidade Federal de São João del Rei

- Computer Science
- 2014 / 2017 (incomplete)

Language

Portuguese: Native

English: C1 (CEFR)

Experience

Blockchain.com - Remote

Senior Frontend Developer

- Crypto Wallet
- React, Redux, Node, and a lot of crypto
- 2021 / ~

At Blockchain.com I'm responsible for being a senior frontend developer, and develop/improve our platforms, including the wallet, the exchange and the explorer. With over 80M wallets, we are one of the biggest players on the market.

Game Analytics - London - GB

Senior Frontend Developer

- Analytics for Mobile Games
- React, AWS, Node, UI and UX
- 2019 / 2021

At GameAnalytics I was responsible for being the leader of the frontend team and develop our new platform, made with React (with Context and Material UI). Our goal was to show and collect data from more than 150M users daily, on real time.

Intrasurance - Lisbon - PT

Frontend Developer

- Insurance Company
- React, Redux, Azure DevOps, UI and UX
- 2018 / 2019

Intrasurance was a segment of Verzekeruself, one of the biggest insurance companies in Europe. My job was to create a widget to embed on customers

websites and give them a way to sell our insurances, we used React and Redux for it.

Norio Matsubara - Faro - PT

Full Stack Developer

- Investor
- React, Postgress, MongoDB, Node, Scrum, UI and UX
- 2017 / 2018

My job with Norio was to be his right hand. He is an investor that has capital invested in several startups all over the globe, and I was the one who analyzed the technical part and helped when needed, working on several different fields, but mostly decreasing the technical debt and applying agile processes.

Mestres Ninja - Curitiba - BR

Full Stack Developer

- Marketplace for Freelancers
- React, MongoDB, Portgress, Python
- 2016 / 2017

I was the founder of this Startup with 2 other friends. We built a dashboard where customers could get freelancers on a "Uber" way, the "most active" developers received the notification and went to the customer.

Unlockers - Curitiba - BR

Full Stack Developer

- Digital Web Agency
- JQuery, PHP, MySQL, UI and UX
- 2014 / 2016

Unlockers was my first experience with web development. There I learned how to deal with customers and how to work with HTML, CSS, JS, PHP, and MySQL. I've built several small and medium websites using Magento, WordPress, and simple static ones.
